

Dangerous Goods Certification:

The shipper, as indicated by signature below, certifies that the particulars on the face description of each shipped item are correct and that insofar as any part of the consignment contains dangerous goods, each part is properly described by name and is in the proper condition for carriage by air according to the applicable dangerous goods regulations. It is further agreed by the shipper that the goods described herein are accepted in apparent good order and condition (except as noted) for carriage subject to the terms and conditions of the contract. Shipper's attention is drawn to the notice concerning carrier's limitation of liability; government regulations require all international air cargo to be cleared through all relevant security procedures.
